

SciPy2021

Scientific Computing with Python
Virtual Conference • July 12 - July 18

What is the SciPy 2021 Conference?

As a community, SciPy® (Scientific Python) advances scientific and analytic computing through the development and promotion of open source Python software; Python usage continues to grow significantly in scientific and analytic computing thanks to the efforts of this conference and community.

The annual SciPy Conference brings together industry, government, and academic users to present their latest work, learn from skilled users and developers, and collaborate on advancing the ecosystem. In 2020, the conference had over 1,500 attendees.

2 days of Tutorials (July 12-13)

The conference begins with two days of expert-led tutorials. These tutorials are very popular, with an introductory track for attendees new to Python, and intermediate and advanced tracks for experienced users.

3 days of Talks, and Specialized Sessions (July 14-16)

Over 100 speakers and authors share their juried presentations and poster papers covering the latest developments in the use of Python in science during the three main days of the conference. Birds-of-a-Feather sessions, Mini-symposia presentations, Lightning talks and Keynote presentations provide a wide variety of opportunities for attendees to participate and learn.

2 days of Sprints (July 17-18)

Two days of sprints wrap up the SciPy Conference and provide an opportunity for collaborative coding and problem-solving on SciPy open-source projects. Last year's sprints contributed real, significant progress for many packages and tools.

Why Sponsor the SciPy 2021 Conference?

Support the SciPy community and code base:

Your sponsorship will help us to convert SciPy 2021 to a virtual conference this year so that the community is able to stay connected and engaged. Your support ensures that we continue to provide opportunities for the community to advance the Python scientific computing tools and packages.

Build awareness, recruit, and make contacts:

Though virtual, we will be hosting the **SciPy Job Fair** and sponsors will be able to create, brand, and host their virtual booths and will have a chance to meet with attendees and discuss career opportunities. SciPy brings together some of the best minds in scientific and analytic computing; you'll be hard-pressed to find this kind of audience anywhere else.

SciPy offers scholarships every year for students and researchers who contribute to the community. In 2019 we were able to pay the travel, registration, and lodging costs for 19 selected applicants, including 11 diversity recipients, selected for their outstanding contributions to open source scientific Python projects. In the last 10 years, over 145 scholarship recipients have attended from countries around the world. SciPy will be able to grant many who apply for financial aid a pass to this year's virtual conference.

"The tutorials were absolutely fantastic and the overall SciPy community is very friendly, helpful and insightful."

-SciPy attendee

"It's the one place where all of the core scientific python developers converge every year. It's a great place to meet scientists using these tools."

-SciPy attendee

2021 Virtual Sponsorship Packages

Platinum

\$5,000

Benefits:

- Listed as Platinum Sponsor on Reception Page of virtual platform
- **Virtual Sponsor Booth** in the Exhibition Hall during the Conference General Sessions
- Thank yous to our Platinum Sponsors during conference announcements
- Platinum Sponsor link with logo on SciPy 2021 website
- Logo on digital program guide
- Large logo on t-shirt available for all attendees to purchase
- 2 thank you tweets to @SciPyConf followers
- 8 General Session Passes

Gold

\$3,000

Benefits:

- Listed as Gold Sponsor on Reception Page of virtual platform
- **Virtual Sponsor Booth** in the Exhibition Hall during the Conference General Sessions
- Thank yous to our Gold Sponsors during conference announcements
- Gold Sponsor link with logo on SciPy 2021 website
- Logo on digital program guide
- Medium logo on t-shirt available for all attendees to purchase
- 1 thank you tweet to @SciPyConf followers
- 4 General Session Passes

Silver

\$1,500

Benefits:

- Listed as Silver Sponsor on Reception Page of virtual platform
- Thank yous to our Silver Sponsors during conference announcements
- Silver Sponsor link with logo on SciPy 2021 website
- Logo on digital program guide
- Small logo on t-shirt available for all attendees to purchase
- 1 thank you tweet to @SciPyConf followers
- 2 General Session Passes

Diversity Sponsor (one available)

\$2,000

The SciPy conference has decided to designate 50% of its Financial Aid budget pay for conference registration to Black, Indigenous, and People of Color. Sponsorship includes:

- Listing as SciPy 2021 Diversity Sponsor on Reception Page of virtual platform
- Thank you to our SciPy 2021 Diversity Sponsor during conference announcements
- Thank you during our Diversity breakout session
- Diversity Sponsor link with logo on SciPy 2021 website
- Logo on digital program guide
- Small logo on t-shirt available for all attendees to purchase
- 1 thank you tweet to @SciPyConf followers
- 3 General Session Passes

Sprints Sponsor (one available)

\$2,000

If your company benefits from the Python Open Source Libraries, consider giving back by funding the attendance of sprint leaders and core developers at our programming sprints. Sprints gather together core developers and others interested in the specific library or package to push forward new features or improve the existing code base. This sponsorship will encourage more sprints at SciPy, yield significant package improvements, and ultimately increase the number of new contributors to core packages in SciPy community.

Sponsorship also includes:

- Listing as SciPy 2021 Sprints Sponsor on Reception Page of virtual platform
- Thank you to our SciPy 2021 Sprint Sponsor during conference announcements
- Sponsor link with logo on SciPy 2021 website
- Logo on digital program guide
- Small logo on t-shirt available for all attendees to purchase
- 1 thank you tweet to @SciPyConf followers
- 3 General Session Passes

Media and Community Sponsors

co-promotion

Promotion opportunities: logo on website, sponsor banner and social media promotion.
